The handbook is divided into five parts. The first part, "The Social and Cultural Construction of Reproduction," examines the ways in which reproduction is shaped by social and cultural factors. The second part, "The Politics of Reproduction," explores the role of reproduction in social and

political power relations. The third part, "The Experiences of Reproduction and Childbirth," provides a detailed account of the experiences of women and men during reproduction and childbirth. The fourth part, "The Reproductive Health of Women and Men," examines the reproductive health of women and men, and the factors that affect it. The fifth part, "", provides a summary of the key findings of the handbook and discusses the future of anthropological research on reproduction.

The Routledge Handbook of Anthropology and Reproduction is an essential resource for students and scholars of anthropology, as well as for anyone interested in the study of reproduction. The handbook provides a comprehensive and authoritative overview of the field, and offers a wealth of new insights into the social, cultural, and political dimensions of reproduction.
